

SCREEN-PRINT PRICING GUIDE

ARTWORK:

Before your design is screen-printed, a graphic artist must create your artwork in vector format. Most orders include one design at no charge with minor modifications. Major changes to a design after artwork has been started will require artwork charges. Artwork is charged at \$30 per hour. Generally, artwork is not started until a complete order is placed including sizes, color, and number of apparel items to be screen-printed. If a customer requests artwork prior to placing an order, an artwork deposit will be required. You can avoid charges for artwork by providing vector artwork in .ai (Adobe Illustrator) or .eps format.

OWNERSHIP OF ARTWORK AND DIGITIZED FILES:

While you own the right to control the use of your logo, Designs Plus retains ownership of all electronic files used to create your logo. We do not release these files to customers under any circumstances. We will release copies of finished designs in .JPEG, .PDF, or printed format.

SCREEN SET-UP FEE:

There is a \$30 screen set-up fee per color (the screen set-up fee for a two-color front logo and a one-color back logo is \$90.00)

SCREEN-PRINT PRICES:

The following table includes our basic screen-printing prices. Add these prices to the blank item prices in our catalog to get an estimate of your total price. These prices are dependent on both the quantity of items ordered, and the total number of screen-printed colors (a shirt with a two-color front logo and a one-color back logo has 3 total colors).

WHITE / LIGHT GREY SHIRTS:

	QUANTITY ORDERED			
	15-50	51-100	101-200	200+
